Jesus' Third Appearance

In John 21:14, John says this is the third time Jesus appeared to his disciples after He was raised from the dead.

The two previous times are in chapter 20. Where did Jesus previously appear to his disciples and who was present?

What does this mean for me?

In today's passage, the disciples see Jesus for the third time since he rose from the dead. They hear him, see the miracle he performed, and eat with him. In John 20:31, these things are shared with us so that we will "**believe that Jesus is the Christ, the Son of God**."

Based on today's passage, do you believe this? Why or why not?
